WORK EXPERIENCE

The McHugh Group, LLC

May 2024 - Aug 2024

Financial Analyst Intern

Lakewood, OH

- Created a valuation report using firm data in Excel and Tableau, highlighting key performance indicators including assets under management, revenue growth, portfolio allocation, cash flow, and client retention
- Built Python forecasting models using Polygon.io and historical market data to identify technology sector opportunities, supporting portfolio allocation and investment decisions

Parker Hannifin

May 2023 - Aug 2023

Digital IT Intern

Mayfield Heights, OH

- Automated monitoring of 1,000+ website certificates with Azure Automation, generating daily email alerts for expiring certificates and eliminating manual checks
- Designed interactive Power BI dashboards for sprint planning, visualizing developer workload, story progress, time allocation, and recurring issues, improving project management for 50+ developers
- Developed a Python file parser to extract and organize completed and ongoing project data from project reports, improving information accessibility for developers and project teams

PERSONAL PROJECTS

Discord Bot

- Developed a Python Discord bot using matplotlib, SQLAlchemy, and multiple APIs to retrieve, process, and visually display user profiles and in-game statistics from various video games

Portfolio Website

- Built a personal portfolio website using JavaScript, HTML, CSS, React, Vite, and Tailwind CSS to showcase skills, education, and projects and develop my frontend skills
